

LOS ANGELES/LONG BEACH HARBOR SAFETY COMMITTEE

Mandated by
California Oil Spill Prevention and
Response Act of 1990

June 12, 2020

Mr. Thomas Cullen
Administrator of OSPR
Department of Fish and Wildlife
P.O. Box 944209
Sacramento, CA 94244-2090

Dear Mr. Cullen,

In these challenging times I would like to take the opportunity to assure you the Los Angeles/Long Beach Harbor Safety Committee is alive and well. As required by California Government Code 8670.23.1, I report that we have no further recommendations for you as we end this 2019 – 2020 Harbor Safety Committee session. Because of the current Covid-19 restrictions we have had virtual meetings of the Navigation Safety Sub Committee, chaired by Captain John Betz, and the June full Harbor Safety Committee.

Both ports are running smoothly. The Committee continues to work on old business and is available to address any issues as they arise. The Harbor Safety Plan is being continuously updated and is available at:

<http://www.mxsocal.org/safety-plan.html>

The time and effort put in by the members of this committee is remarkable. It is to them that the Los Angeles/Long Beach Harbor Safety Committee owes its success in continually improving maritime safety and oil spill prevention.

Sincerely,

A handwritten signature in blue ink, appearing to read 'John Z. Strong', is written over the typed name.

John Z. Strong
Chairman
