

LOS ANGELES/LONG BEACH HARBOR SAFETY COMMITTEE

Mandated by
California Oil Spill Prevention and
Response Act of 1990

June 30, 2024

Dr. Julie Yamamoto
Acting Administrator of OSPR
Department of Fish and Wildlife
P. O. Box 944209
Sacramento, CA 94244-2090

Dear Dr. Yamamoto:

I am pleased to report that the Los Angeles / Long Beach Harbor Safety Committee has reviewed and revised the Los Angeles / Long Beach Harbor Safety Plan as follows:

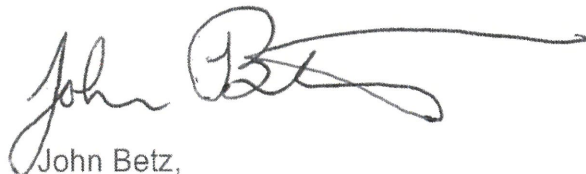

| | |
|---------------|--|
| Chapter VII | Updated vessel accident statistics |
| Chapter XVIII | New Chapter containing Navigation Standards of Care |
| Appendix C.1 | Updated to reflect current tug fleet |
| Appendix G | Rewrote to bring this Appendix in line with current practice |

We have no further recommendations for you as we conclude this 2023-2024 Harbor Safety Committee season.

Both ports are running smoothly. The Committee continues to work on old business and is available to address any new business as it arises. The most recent version of the Harbor Safety Plan is dated June 30, 2024, and is available at: <http://www.mxsocal.org/safety-plan.html>

I commend the commitment of our volunteer members who serve on our committee. It is to them that the Los Angeles Long Beach Harbor Safety Committee owes its success in continually improving maritime safety and oil spill prevention.

Sincerely,

John Betz,
Chairman
