Note 1: Updated bollard pull information and Escort Tug Inspection Program (ETIP) information are available from the Marine Exchange of Southern California Web Page www.mxsocal.org in the Harbor Safety Committee Tab.

Note 2: ETIP compliant vessels have received an extension on their bollard pull date from the State of California. Please also see info on the ETIP program on the California Office of Spill Response Web Page at the following site: <https://wildlife.ca.gov/OSPR/Prevention/Marine-Safety-Unit#etip>

Note 3: Pursuant to State Regulations, tugs must have their bollard pull re-tested every 3 years or be accepted into the ETIP to extend their bollard pull date. The strain cell used for the bollard pull measurement shall have been calibrated within the past 12 months of the bollard pull measurement.

Abbreviations:

S	Single Screw
T	Twin Screw
C	Cycloidal
Z	Z-Drive
TR	Tractor Tug (collective term for Cycloidal and Z-Drive Tugs)
NR	Not reported
