MARINE EXCHANGE OF SOUTHERN CALIFORNIA MARITIME INFORMATION SERVICE (PRODUCTS, SERVICES, REPORTS, and FEES)

Welcome to the Marine Exchange!

This document lists the products, services, and reports we provide. We provide products and services 365 days a year, 24 hours a day. If you want something that is not on the list, please contact us and we will see if we can create it. We have great capacity to do custom work to meet your needs.

Obtaining Information: We have several methods of providing information:

1. Reports: Distributed at approximately 0700 and 1200, 365 days a year by e-mail or fax.
2. Data Feeds: A direct feed of data from the Marine Exchange Vessel Database which is updated 24/7/365.
3. Web Access: Real time reports (updated every 5 minutes) and Live AIS ship data can be accessed through a log-in and password on the Marine Exchange website. This affords the ability to see the most up-to-date information which is updated 24/7/365.

Excel Format: Many of our reports are now available in Excel format at 2 times the rates listed. Please let us know if you prefer the Excel format at the added cost.

Marine Exchange Website: Some reports and our Target Mapping vessel display system may be accessed and ordered on-line at www.mxsocal.org.

Discounts: We offer 5%, 7%, and 10% discounts for advance payment quarterly, semi-annually, and annually. See pages 6 and 8 for more discount information.

MASTER QUEUING LIST REPORT

Master Queuing List Report.....\$65/Month
Web Access to Above Report.....\$11 Additional/Month

This report is published twice daily at approximately 0700 and 1200. The report lists vessels that are awaiting berth/anchorage assignment in order from oldest CTA (calculated time of arrival) or Check-in (to San Pedro Traffic for the ports of LA/LB) to newest. The vessel at the top of the list having highest priority for labor allocation. Includes vessel name, type, location (anchor/loiter), anticipated location (berth/anchor/loiter), CTA (date/time), check-in (date/time), arrived (date/time), Lloyds TEU (20-foot equivalent unit), awaiting port (LA or LB), and agent.

The Master Queuing List is provided to aid thoughtful planning when vessels are awaiting berth in Los Angeles and Long Beach. Container vessels are placed in the queue using a CTA based on when the vessel departed (date/time) their last port of call before LA/LB. Pacific Maritime Management Services (PacMMS) is the initial point of contact and tracker for container vessels. This allows vessels to slow steam and spread out across the Pacific while awaiting berth at LA/LB. The vessel's CTA determine the order for labor allocation. This report is also intended to support the function of the Los Angeles/Long Beach Port Coordination Team and the Marine Transportation System Recovery Unit (MTSRU) of U.S. Coast Guard Sector Los Angeles and Long Beach following a disruption or shut-down of the port(s) for any reason, natural or man-made.

MONTHLY COMPOSITE REPORT

Monthly Composite Report\$55/Month

This report is published and distributed during the first week of each month and lists the total arrivals and departures for the previous month, plus a "year-to-date" total composite. The report also lists arrivals by flag for the month, as well as a breakdown of arrivals by type of vessel. Total bunker jobs for each port are listed separately. Comparisons are made between the current month and previous month, as well as between the current month and the same month of the previous year.

Monthly Composite Report also includes the following:

- A. Vessel Bunkering Report:** Shows all "bunkering only" activity for the month by port, including previous year's stats. All "bunker only" statistics reflect vessels taking fuel at an assigned anchorage or berth.
- B. Arrivals by Flag:** Lists a monthly breakdown of all arrivals by flag of registry and year-to-date totals.
- C. Arrivals by Vessel Classification and Companies:** Tabulates totals of all arrivals by vessel type, as well as by agent and/or operator.

D. Arrival Summary by Vessel Classification: Documents all arrivals with a break-down by vessel type only. (Including previous year's stats).

E. Arrival Summary by Companies: Reports total MONTHLY arrivals for each agent and/or operator; with year-to-date totals shown, list prior year's total arrivals, comparison total, and change.

F. Arrival Summary: Shows a monthly total for all arrivals, by year, with comparisons running back for a 10-year period. We can also provide a "total monthly re-cap" on all the arrivals dating back to 1923 when the Marine Exchange was founded.

G. Arrivals at El Segundo, San Diego, and Port Hueneme: Shows a monthly total for all arrivals, by year, with comparisons.

H. Arrivals by Vessel Type at El Segundo, San Diego, and Port Hueneme: Shows a monthly breakdown of all arrivals by vessel type of registry, accumulative summary by type, and year-to-date totals.
